**Subject:** Re: call with Saint-Gobain's lawyer

Thanks paul. Oak Mitsui or another oak named company used to operate on the west side of the hoosick River , opposite mc Caffrey street. The company is a predecessor to st Gobain , was once owned by Honeywell and is now may be part of the st Gobain holdings. This really speaks to the need for a rifs It is odd that Chris Gibson and the company spokesperson keep saying the problems were with their predecessors. They must know they are still liable. But they may have included releases in the documents governing corporate purchase. Sounds like Potential Good news on The Calgon temporary treatment system but we have to find out the Pfoa removal level. Doug, remind doh that Nathan graber says doh wants to get to non detect. Re: delivery of bottled water. If st Gobsine were to offer home delivery i am sure many would take them up on that. There was a recent meeting in hoosick falls to organize water delivery to senior citizens and the disabled. Boy Scouts may get involved but the police chief raised concerns about children entering private homes. I am happy to meet with the company in January Please call Tom ulacawicz next week and ask for a copy of the agreement. Would be terrible if the village agreed to liability releases. Thanks everyone
